

Tell us when you first found out about children's rights or the UNCRC?

Do you remember
how old you were?

Where have you found the best information about your rights?

e.g. in school,
online, at youth
clubs, from your
parents or carers

**Do you think your
rights are better
now compared
to when you first
found out about
them?**

Are there any rights the Welsh Government should be doing more about and why?
