

**P-05-900 Look into the way parents are being treated by public services,
Correspondence – Petitioner to Committee, 01.10.19**

My petition is being looked at by the committee today I have written to the U.K. government as I feel the Welsh Government is hiding behind complaints policy's that make it harder for parents/ families the Welsh Government refuses to listen to the fact that families / parents who are for disabled children & adults are being failed leaving parents to struggle or turn to charity's who also struggle because of funding parents are fighting for things such as equipment or support....many families/ parents are being bullied by professionals a number of times it's happened to my self which leaves me at breaking point I do my very best as a mother my partner finds its hard because of its s constant fight and worry especially when professionals abuse their position for examples I made a complaint regarding being refused a wheelchair for my [child] when [they were] little that physio then went on to fabricate lies about my family which was very hurtful...a head teacher [...] took a dislike to me and decided to try and report me to social services one being over my [infant child] wearing children make up glitter I found out this at tribunal....being investigated and treated like a criminal over my [child] having a pressure sore ([they use] a wheelchair) it happened in school yet that was not investigated... social services have made mistakes yet nothing done and regardless of how many times I go through complaints policy they all get away with it I contact the Welsh Government and they refuse to step in ... I'm still to this day waiting for answers from Bridgend council I asked them a handful of questions one being I made a complaint regarding a support worker at school they then went on to report my [child] going to school Dirty & smelly ([they] didn't report it to school) and school as supported me as it Is not true yet the inclusion service refuse to answer why the staff member fabricated lies and what actions being done something as a parent deserve to know many families are being put through hell and I'm urging the Welsh assembly to support my petition it's a cruel world we live in we've done nothing wrong .. our children have done nothing wrong so why are professionals allowed to get away with it ? It's because they can
