

P-05-849 All men in Wales should have access through the NHS to the best possible diagnostic tests for prostate cancer, Correspondence – Petitioner to Committee, 22.11.19

Interesting the points about the interim period being made time and time again, yet the Betsi is refusing to repay those guys who have made payments since we met with the Chair of the Board and the Director of Nursing. It would be helpful if the committee made reference to this to the Minister?
